Background

For many years it has been difficult to organise relief transports to eastern European countries. In some countries it was forbidden to hand out food and clothes to the population. One of these countries was Rep. Moldova. The current financial crisis is hitting this former Soviet republic very hard. Many families have no income because both parents are unable to find work. Social benefits are being paid very irregularly; often people have to wait for weeks to receive pensions, or benefits. Especially in the country-side there is much poverty.

Goal

The goal of the group trip is to encourage the poor and be a blessing for our brothers and sisters in the Lord, this is achieved by the traveller being there, and also by handing out food parcels and clothes. The team will visit local Christians, which can now be done in the open without the fear of interference by the police. Local orphanages, churches and hospitals will also be visited. Even though it is encouraging for these people to receive practical help, we would like to emphasise the spiritual aspect of the trip. Encouragement of and fellowship with fellow Christians is far more important, as well as sharing the Good News with non-believers, Evangelism is a very important part of the trip.

Together with our local contact persons a diverse programme will be made. If possible, we will take time to get to know the country by making excursions.

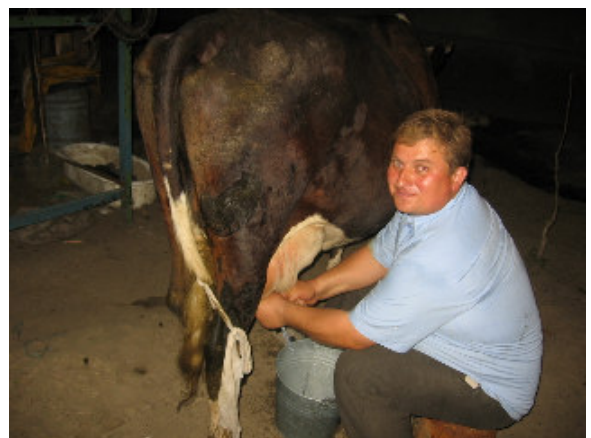

VISIT YOUR OWN SPONSORCHILD

As much as possible we will try to plan in personal visit requests from participants, for example if they want to visit their sponsor child. Please let us know before the trip.
